

Professional Lion Shell Cordless Hair Trimmer

Burning is Professional Lion Shell Cordless Hair Trimmer manufacturer based in China which specializes in designing, researching and development of excellent hair clippers and hair curlers since 2010.

Burning creates high production technology, which brings a fast and high-efficient performance of hair cutting with low blade noise. The silver and palladium alloy driving motor ensures high speed operation and guarantee the super long lifespan as well.

Model:BN-01

Product Description

High quality Professional Lion Shell Cordless Hair Trimmer made in China.

Burning® is Professional Lion Shell Cordless Hair Trimmer manufacturer and supplier in China. This Burning BN-01 is a new electrical hair trimmer.

This multipurpose hair clipper combines the functions of a hair clipper and a beard trimmer in one device. It includes full-size guide combs to satisfy your needs of trimming your head and face, it is also suitable for kids or toddlers haircut thanks to low noise and safety blades.

The electric clipper's motor is powerful enough to cut through even the thickest hair with ease. The teeth on the blade are tightly line up with each other to remove hair with no snagging or pulling, offering an effective haircut.
