Product Description

Burning® is one of the famous China Professional Skull Shell Cordless Hair Trimmer manufacturers and suppliers. Our factory specializes in manufacturing of Professional Skull Shell Cordless Hair Trimmer. With more than 10 engineer in R&D department, The Factory is developing its owned designed products. Customer is welcome to offer their design and ask the factory to make the tooling accordingly.

This Burning BN-02 is a skull shell electric hair trimmer.

This multipurpose hair clipper combines the functions of a hair clipper and a beard trimmer in one device. It includes full-size guide combs to satisfy your needs of trimming your head and face, it is also suitable for kids or toddlers haircut thanks to low noise and safety blades.

The electric clipper's motor is powerful enough to cut through even the thickest hair with ease. The teeth on the blade are tightly line up with each other to remove hair with no snagging or pulling, offering an effective haircut.
